Dear Director of Golf / Hiring Professional,

I am a PGA Level 3 Associate with the PGA of America, having completed all Level 3 requirements and actively progressing toward full PGA Membership. My career has been built within high-performance golf environments where operational precision, player development, and measurable results are essential.

At Wildfire Golf Club, I have contributed to the coordination and execution of more than 140 tournaments annually while also supporting instructional programming, junior development initiatives, and daily golf operations. This experience has strengthened my ability to balance guest experience, revenue performance, team collaboration, and instructional leadership within a dynamic resort setting.

I take pride in delivering disciplined operational standards, creating engaging player development environments, and supporting teams that strive for continuous improvement. Whether coordinating large-scale events or leading individual instruction, my focus remains the same — preparation, professionalism, and measurable impact.

If you believe my background aligns with your facility's goals, I welcome the opportunity to speak with you directly. I am open to opportunities at all levels and prepared to contribute immediately.

Sincerely,
Jim Sutter
